

Mobile App Update

On 9/11/23 the latest update of the Apple iPhone/iPad mobile app was released. The Google Android (Samsung & others) version will be released soon. The new version addresses technical issues and includes improvements. You can verify that your device has the update by checking the bottom of the login screen for **App Version 23.11.1**.

Updating Your Mobile App

For most users, the new app will install automatically. If you have turned off automatic updates, go to the app store, find the Macon-Bibb ECU app then tap Update.

Installing Your Mobile App for the First Time

If you have not yet installed the mobile app, tap one of these links while using your device:

Android (Samsung, etc.)

iPhone, iPad

You may also go to Google Play or the Apple App Store, then search for **macon-bibb** or **maconbibb**.

User Guides

The User Guides provide mobile app screen pictures, with brief descriptions of various functions.
